Butterflies of Bauer-Brockway Barrens
(Jackson Co.)
Saturday, May 19
10:30 a.m. - 3:00 p.m.

The best place in the state to look for early butterflies in May is Jackson County. Douglas Buege will lead us in finding and observing many scarce and unusual species, many that only fly in May! We hope to find all 5 of the state's Elfins, including the very rare (and State Threatened) Frosted Elfín. We should find Olympia Marble, Gorgone Checkerspot, Cobweb Skipper, Dreamy and Sleepy Duskywings, etc. Over the past 9 years we have averaged 21 species. Bring binoculars if you have them, close-focusing ones work best. (A few extra pairs of binoculars are available.) Also, bring a bag lunch and water. A hat, long pants and long sleeves are recommended.

Meet in Jackson Co. at 10:30 a.m. at the corner of West Bauer Road and Brockway Road. We will butterfly until 3:00 p.m. DIRECTIONS: From the intersection of I-94 and Hwy 54 in Black River Falls, go north on Hwy 54 approximately 0.4 miles and turn right on West Bauer Road. Drive 3.8 miles to the intersection with North Brockway Road. Park at the intersection. (This area is about 2 hours, or so, northwest of Madison via I-94.)

Participants must PRE-REGISTER for this trip by either calling Karl Legler at 608 228-0743, or include your phone number in an email to karlndot@charter.net (so we can contact you in case of postponement or cancellation due to weather).

BUTTERFLIES AND WILDFLOWERS OF PLEASANT VALLEY CONSERVANCY
Saturday, June 16, 2018
10 a.m.– Noon.

Pleasant Valley Conservancy is a beautiful state natural area situated in the Driftless Area, with steep goat prairies, oak savanna, and a large, high quality marsh. This time of year we hope to see Baltimore Checkerspots and perhaps some wetland skippers. Other possible butterfly species include swallowtails, Silvery Checkerspot, fritillaries, and blues. All of these butterflies will have many wonderful native plants to nectar on this time of year. Led by Ann Thering and Tom and Kathy Brock. Long pants, a hat, water, and hiking shoes are recommended. Bring binoculars—the closer they focus, the better! (We have a few extra binoculars.) If you would like, bring along a bag lunch for after the field trip. (This is a
joint trip of SWBA with Madison Audubon and The Prairie Enthusiasts. Contact leaders only if you have a question about the trip: Ann at (608) 836-1097 or Tom at (608) 238-5050 or tdbrock@charter.net

DIRECTIONS: (4554 Pleasant Valley Road, Black Earth) Heading south into downtown Black Earth follow County Hwy F as it turns right (west). After a mile or so, F turns left (south). Continue on F for another 3 3/4 miles turning left onto Pleasant Valley Road. Drive 3/4 mile (past the buildings on the right) to the state natural area sign. Park off the road.

BUTTERFLIES OF CHEROKEE MARSH
Saturday, June 23
10:00 a.m. to Noon

On this morning walk we’ll observe and learn about butterflies, those small but exquisitely beautiful creatures that dance around us in summer. Karl and Dorothy Legler and Janet Battista will lead this 2 hour walk at Cherokee Marsh on the northeast side of Madison. We will observe a variety of butterflies as they take nectar from wildflowers, and learn about their identification, behavior, and lifestyle. Bring binoculars if you have them — close-focusing ones work best. We have a few extra pairs of binoculars. It’s best to wear long pants and a hat for protection from the sun.

This is a joint trip of the Southern Wisconsin Butterfly Association, with Madison Audubon Society, and Friends of Cherokee Marsh.

Meet at 10:00 a.m. DIRECTIONS: On the north side of Madison take Northport Drive (Highway 113) then turn north on Sherman Ave. Meet at the Cherokee Marsh parking lot at the north end of Sherman Ave. (6098 N Sherman Ave, Madison, WI.) Call Karl at (608) 643-4926 or email karlndot@charter.net, only if you have a question about the trip.

2 SWBA MEETING SUMMARY

There was a nice turnout of 25 people for the May SWBA Meeting. The new NABA book on Butterfly Gardening was on display, along with Jeff Glassberg’s 2nd edition of Swift Guide to Butterflies of Mexico and Central America. (If you missed Dorothy Legler’s program on Attracting Butterflies to your Yard, it will also be presented on Thursday, May 31 at Bellville public library. The program is given as part of SWBA's Speaker's Bureau. See Article 3.)

ELECTION OF OFFICERS
Karl Legler has replaced Dan Sonnenberg, who unexpectedly passed away in November of last year. The current Officers are:

President: Dr. Douglas Buege
Vice-President: Karl Legler
Secretary: Dorothy Legler
Treasurer: Ginny Nelson

3 IF YOU MISSED THE MEETING . . .
Create a Butterfly Garden in your yard! Butterflies are a splendid addition to any garden! A Butterfly Garden will help to stem the loss of habitat that is contributing to a decline in butterfly populations. Dorothy will discuss the needs of Wisconsin’s interesting and beautiful butterflies, their food plants and nectar sources, butterfly behavior, and provide ideas for attracting butterflies to your yard.

4 NABA BUTTERFLY COUNT SCHEDULE
These are similar to Christmas Bird Counts. This is a good way to gain more experience with a range of butterflies. Whether experienced or novice, you are always welcome to participate. To join in, or if you have a question, contact the coordinators (Karl and Dorothy Legler, karlindot@charter.net, (608) 643-4926). (NABA charges a $3 fee to participate in a count, to help defray the cost of publication.) (For a list of additional Butterfly Counts in Wisconsin and elsewhere, visit NABA’s Web site at www.naba.org/counts/us_mx_map.html Contacts are Listed.)

Every other year NABA holds a meeting and field trips somewhere in the U.S. Tallahassee is a treasure trove of riches for those who love the outdoors and nature. The Panhandle has been identified as one of the five richest biodiversity hotspots in North America. The Apalachicola River Basin, just to the west of Tallahassee, has the highest species diversity of reptiles and amphibians in the U.S. and an estimated 1300 plant species, with 127 of them endemic to the Basin, including dozens of carnivorous plant species, more than any other state. The Apalachicola NF, just south of Tallahassee, is part of one of the largest contiguous blocks of public lands east of the Mississippi River. Just a 30-minute drive from Tallahassee lies the Gulf of Mexico, famous for its beaches and seafood. With over 120 species of butterflies within the vicinity, Tallahassee will give attendees of the 13th biennial NABA meeting an opportunity to experience the riches of natural Florida. The cost for the 4 days is $295, which includes 3 days of field trips and Workshops, 3 box lunches and 2 banquet dinners. (Accommodations are extra.) Daytime temperatures average in the upper 80's.

TENTATIVE SCHEDULE

Sunday, September 16:
3:30-7:30 p.m. Registration
7:30-9:00 p.m. Welcome & Program:
"An Introduction to Central Florida Panhandle Butterflies" by Dean and Sally Jue

Monday, September 17:
8:00-8:45 a.m. Workshops (3 concurrent topics)
9:15 a.m. Field Trips depart
5:00 p.m. Field Trips return
6:00-7:00 p.m. Social Hour, Book signing, Exhibits
7:00-9:00 p.m. Banquet and Keynote Speaker

Tuesday, September 18:
8:00-8:45 a.m. Workshops (3 concurrent topics)
9:15 a.m. Field Trips depart
5:00 p.m. Field Trips return
6:00-7:00 p.m. Social Hour, Book signing, Exhibits
7:00-9:00 p.m. Banquet and Featured Speaker

Wednesday, September 19:
8:00 a.m. Field Trips depart
3:00 p.m. Field Trips return
3:00-3:30 p.m. Meeting Finale

"A fully revised Second Edition of the most detailed, comprehensive, and user-friendly photographic field guide to the butterflies of Mexico and Central America.

- Covers more than 2,000 species.
- More than 1500 new photos.
- Beautifully illustrated with 3,800 color photographs.
- Field marks and arrows that show you exactly what to look for are embedded in the photographs for swift access.
- Detailed range maps."

8" x 5.8" 304 pages. Available on Amazon for $27.61 + shipping.

This book was published in April. The author is Jane Hurwitz the editor of Butterfly Gardening magazine and the former director of the Butterfly Garden and Habitat Program of NABA.

"An indispensable and lavishly illustrated guide to creating a garden that attracts and sustains butterflies

Butterfly gardening creates habitats that support butterflies, connecting us with some of the most beautiful creatures in the natural world and bringing new levels of excitement and joy to gardening. In this engaging and accessible guide, lavishly illustrated with more than two hundred color photographs and maps, accomplished butterfly gardener Jane Hurwitz presents essential information on how to choose and cultivate plants that will attract a range of butterflies to your garden and help sustain all the stages of their life cycles.

An indispensable resource for aspiring and experienced butterfly gardeners alike, Butterfly Gardening is the most gardener-friendly source on the subject, covering all the practical details needed to create a vibrant garden habitat that fosters butterflies. It tells you which plants support which butterflies, depending on where you live; it describes what different butterflies require in the garden over the course of their lives; and it shows you how to become a butterfly watcher as well as a butterfly gardener. While predominantly recommending regionally native plants, the book includes information on non-native plants. It also features informative interviews with experienced butterfly gardeners from across the United States. These gardeners share a wealth of information on plants and practices to draw butterflies to all kinds of gardens—from small suburban gardens to community plots and larger expanses.

Whether you are a gardener who wants to see more butterflies in your garden, a butterfly enthusiast who wants to bring that passion to the garden, or someone who simply wants to make their garden or yard friendlier to Monarchs or other butterflies, this is a must-have guide." 10.5" x 8.5" 288 pages. $22.80

The ButterFlyer flits to you every month in summer. The next issue will be in June.
